

LEFT HAND AUTOMATIC HEAVY DUTY CHUTE

Filson Mfg. Co., Inc. has over 50 years experience in the manufacturing of livestock equipment. Quality workmanship and materials make these chutes the top of the line when it comes to cattle squeezes. They are ideal for feedlots, veterinarian services and heavy cattle usage. Check and compare these features with any other chute on today's market.

Features:

- Non-choking self-catching headgate
- All controls centrally located
- One man operating chute
- Easy adjustments for different size livestock
- Front and side exits
- Vertical drop bars and side panels
- Portable or stationary

Options:

- Right Hand Controls
- Slide Gate on back
- Wheel Kit
- Wood or Steel Sides
- Wood or Steel Floor (wood and steel can be used together, i.e. steel sides & wood floor)

Specs: Weight 940 lbs. Width 38" Height 79" Depth 96"

LEFT HAND XL AUTOMATIC HEAVY DUTY CHUTE

Options:
Right Hand Controls
Slide Gate on back
Wheel Kit

Specs: Weight 1,310 lbs. Width 42" Height 85" Depth 103"
Steel Sides & Floor

WHEEL KITS

The Wheel Kit is a separate trailer with a detachable tongue to which the chute bolts. The chute is elevated into position for transport by means of a lever jack or winch. This unit can be lowered or raised into transport position in a matter of seconds. Wheel assemblies will fold to the back of the chute or can be completely removed when chute is in use. Unit comes less tires. Tire size suggested: P205-15

- Std Chute Wheel Kit
- XL Chute Wheel Kit
- Std Extended Wheel Kit (std chute + palp cage)
- XL Extended Wheel Kit (XL chute + palp cage)
- Calf Table Wheel Kit
- Goat Table Wheel Kit

Rebar Floor
Butt Pusher
Wheel Kit
Swing Out Boom
Handheld Remote Control (wired or wireless)

Right Hand Controls
Neck Down Bar
Brisket Bar
Hyd. Leg Holder
Drop Controls
Motor & Controls Remote

LEFT HAND CALF TABLE

The Calf Table rolls left or right for easy access to both sides of animal. The circle concept allows the weight of the calf and the table to always remain in the center of the base. This will let the rotation of both the calf and the table to rotate vertical as well as horizontal with ease. Equipped with stanchion type headgate with friction lock, side squeeze and vertical drop panels on both sides. Holds calves up to 500 lbs.

Specs: Weight 570 lbs. Width 55" Height 60" Depth 61"

LEFT HAND GOAT TABLE

The Goat Table has the same basic design as the Calf Table. The special features for goats include one removable bottom side panel and a drop floor. There is also extra height on the base.

Specs: Weight 460 lbs.,
Height 60"
Width 55", Length 49"

AUTOMATIC HEADGATE

This headgate catches the animal automatically. When the side panels are in the inward position, the opening is large enough to allow passage of the animal's head. When the animal's shoulders hit the side panels, the headgate closes locking the head in place. To release the animal, move the panels to an outward position. Headgate can be changed for right or left hand control.

Options: Nosebar
Head Stabilizer Kit

Specs: Weight 240 lbs. Width 33" Height 69"

XL AUTOMATIC HEADGATE

The XL Automatic Headgate is designed for larger breeds of cattle. Constructed of heavier materials, it has the same features and ease of operation found in the Automatic Headgate. Neck bar and nose chain are features.

Options: Nosebar
Head Stabilizer Kit

Specs: Weight 350 lbs. Width 39" Height 75"

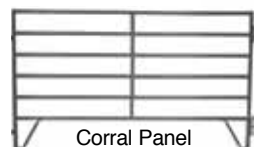

PALPATION CAGE

The palpation cage can be added to Filson Chutes or adapted to mount on other makes of chutes. Doors on both sides swing out making it more convenient for pregnancy testing, castrating, clamping, etc. It is equipped with a vertical sliding rear gate that has a locking device to keep gate down.

Specs: Weight 215 lbs. Width 37" Height 79" Depth 30"

PANELS & CUTTING GATE

Corral Panel

10' Corral Panel w/4' Walk-thru

Bow Gate

Cutting Gate

10' Corral Specs: Weight 129 lbs. Height 70" Length 122"

XLT MANUAL HEADGATE

This stanchion type headgate can be mounted on the XL Chute or the Standard Chute - in place of the Automatic Headgate. The Locking device on this headgate is a friction lock. Nose chain is standard. Ideal for horned cattle.

Specs: Weight 220 lbs. Width 39" Height 78"

PALPATION CAGE WITH SLIDE GATE

This palpation cage is equipped with horizontal sliding gate which can be changed to slide left or right.

Specs: Weight 300 lbs. Width 37" Height 79" Depth 30"
